Re: N70 Brackaharagh Road Project

Planning & Development Acts 2000 - 2017

Planning & Development Regulations 2001- 2018

SCHEME PARTICULARS

The N70 Brackaharagh Road Project comprises of the improvement of approximately 1.2km of National Secondary Road, in the townland of Brackaharagh, Caherdaniel, Co. Kerry. The project commences 2.8km to the East of Caherdaniel Village and terminates approximately 2.4km to the West of Castlecove Village.

The existing road is a single carriageway with limited hard strip or verge and is deficient in terms of horizontal alignment, vertical alignment, cross section and pavement condition. The conditions at the junction with Local Road L-11602 (Reen Cross) are particularly hazardous due to a substandard layout and restricted visibility.

The project generally comprises of:

- Widening/Realignment of 1.2km of the existing road to a Type 3 Single Carriageway (7.0m wide) with segregated cycle facility/pedestrian facility.
- Upgrade of the existing junctions – L-11602 known locally as Reen Cross, and L-11603.
- Earthworks, drainage and pavement construction.
- Other ancillary and accommodation works associated with the project.
