

PROPOSED ENHANCEMENTS AND EXTENTION TO ST. MARY'S CAR PARK, GREEN ST. DINGLE

Having recently reached agreement with St. Brendan Trust for the long term lease of lands adjacent to and including St. Marys Church car park in Dingle, Kerry County Council propose to enhance the existing car park and the construction of an extension to same.

The proposed works include for the following;

- The removal of a section of stone wall to facilitate the widening of the existing entrance to accommodate 2-way traffic. This redesigned entrance will also incorporate a revised entrance to the adjoining Parish Offices of St. Mary's Church.
- The provision of LED public lighting throughout the facility.
- The provision of adequate pedestrian access.
- The enhancement and resurfacing of the existing car park.
- The construction of an additional 84 car parking spaces.
- All associated ancillary and accommodation works.

The works, as proposed, will result in the provision of a total of approximately 100 car parking spaces, an increase of 75 on its current capacity.
